Type: elegant serif for emotional lines, clean sans-serif for logo / tech.

Shot-by-Shot

1 · COLD OPEN — the question

0:00–0:08

VISUAL

Black screen. Slowly, floating gold light particles / dust appear (Canva particle overlay). Alt: an elderly hand holding a phone with a crypto wallet on screen.

TEXT OVERLAY (SERIF, FADE IN)

Every year, billions in crypto vanish forever.

MUSIC

A single piano note. Silence.

2 · THE PROBLEM — loss

0:08–0:16

VISUAL

Slow-fast montage: a wallet address, then "Access Denied" / a fading key / a candle going out.

TEXT OVERLAY (SEQUENTIAL)

Keys lost.

Owners gone.

Wealth — locked away, unreachable.

MUSIC

Pad enters, low and melancholic.

VISUAL

Out of the darkness a single gold light ignites (a candle lit). It slowly grows. Transition into the Memogent logo, revealed from the light.

TEXT OVERLAY

What if your legacy could protect itself?

MUSIC

Piano motif rises — the mood-shift moment.

4 · INTRODUCING MEMOGENT — the solution

0:24–0:38

VISUAL

Logo centre stage. Then 3 icons appear in turn with gentle animation: 🧠 "It watches." · ⚡ "It acts." · 💖 "It remembers."

TEXT OVERLAY***Memogent***

An autonomous AI guardian for your on-chain legacy.

It watches. · It acts. · It remembers.

VOICEOVER (OPTIONAL, CALM & WARM)

"Memogent is the AI that carries your wishes forward — autonomously, trustlessly, on Somnia."

MUSIC

Full build, still warm.

5 · EMOTIONAL CORE — the farewell ★

0:38–0:50

VISUAL

Elegant quote card, text appears as if being written (soft typewriter), gentle candle glow behind.

TEXT OVERLAY (SERIF ITALIC, SLOW REVEAL)

"I hope this reaches you well.

You've always been someone I trusted.

Take care, and thank you for being here."

— generated by Memogent AI, on-chain

MUSIC

Emotional peak, then begins to resolve.

NOTE

This is a real AI output from production — authentic, do not change.

Your wealth outlives you.

Now your wishes do too.
